Professional Summary

B.Sc. Information Technology student with a strong academic record and hands-on experience developing full-stack web applications and AI/computer-vision technologies. Specialized in PHP, Laravel, Python, and multi-agent systems, with a passion for building practical, high-impact technology solutions.

Education

LJ University

2024 – 2027

Bachelor's in Information Technology (BSc. IT)

Overall CGPA: **9.32/10**

- **Honors & Achievements:** Secured 1st Rank (Sem 3 & 4) and 2nd Rank (Sem 1 & 2) across the university.

Technical Skills

Languages: PHP, Python, C++, C, JavaScript, SQL, PL/SQL

Frameworks & AI / Machine Learning: Laravel 10, Flask, PyTorch, YOLOv8, MediaPipe, OpenCV

Databases & Tools: MySQL, MongoDB, SQL, XAMPP, Git, GitHub, Linux

Core Concepts: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Operating Systems, Artificial Intelligence & Machine Learning

Projects

Sentinel AI

Python, Flask, YOLOv8, MediaPipe, MySQL, Twilio

 *GitHub*

- Developed a real-time computer-vision security system for detecting weapons, suspicious behavior, and robbery gestures using YOLOv8 and MediaPipe.
- Built a Flask-based role-based dashboard with MySQL for managing civilian, law-enforcement, and incident data.
- Implemented automated threat-location routing and multi-channel alerting with evidence capture and WhatsApp notifications using Twilio.

Bakery Inventory & Order Management System

C

 *GitHub*

- Engineered a command-line management system using C to efficiently handle bakery inventory, customer records, and dynamic order processing.
- Implemented secure login authentication, file-based data persistence, and structured search functionalities to simulate real-world business operations.

Tic Tac Toe Game

C

 *GitHub*

- Developed a terminal-based, two-player game emphasizing fundamental programming concepts including control flow, dynamic input validation, and 2D arrays.
- Designed a clean ASCII-based interface with robust logic to accurately detect win conditions, draws, and invalid moves.

Certifications

- **C for Everyone: Programming Fundamentals** – University of California, 2025
- **Oracle SQL Basics** – LearnQuest, 2025
- **Introduction to Generative AI** – Google Cloud, 2025
- **Cybersecurity with Python** – Google, 2025

Hackathons

- **Hackovate LJ 2025** – Participated in the hackathon and worked on a technology-based solution.
- **Tic Tech Toe 2026** – Participated in the hackathon and developed a project-based solution.
